Notes:

1. These groupings are not set in stone. If you feel that another group is better for you then please tell me.
2. You can merge with another group to fill out a team boat.
3. If you do join a singles group that is not yours then you need to make sure that you stay with the group (faster or slower) and do not interfere with your steering.
4. Let me know how this is working.
5. I will keep tweaking the groupings to make it better based on my observations and your input.
